Construction Engineering Technician

Huron Engineering and Surveying, Inc. (Huron) is seeking a qualified individual for a Construction Engineering Technician position.

Duties and Responsibilities

- Daily field oversight of construction activities
- Resolve problems in the field
- Enforce compliance with construction standards
- Prepare daily work reports
- Perform a wide variety of materials testing in the field and laboratory, including concrete, aggregates, hot mix asphalt and soils
- Assist with surveying on construction, design and private projects
- Communicate with the project team

Required Qualifications

- A valid driver's license without restrictions
- High School Diploma or GED
- US Employment Authorization
- High aptitude for math
- Excellent organizational, interpersonal, and communication skills
- Ability to work independently in a fast-paced environment and deliver results to meet timelines
- Willing to comply with safety rules, follow directions, and work overtime when needed

Preferred Qualifications

- Associate's degree or pursuit of a degree in a field related to the construction industry
- Possession of current MDOT related certifications in concrete, aggregate and density
- Certified Construction Site Storm Water Management Operator
- Experience in Field Manager/Field Book and Project Wise
- MDOT Hot Mix Asphalt Certification
- Working knowledge of Microsoft Office

Huron offers a competitive wage and benefits package and is an Equal Opportunity Employer. The hourly pay rate for this position is \$20.00 - \$27.00 per hour. Pay rate will be dependent upon experience and/or current certifications.
